EMPLOYEE - HEALTH, SAFETY AND EDUCATION:

Our employees – their own health, safety and knowledge are essential to an effective cleaning program at the resort and here are some ways we are supporting them:

Ongoing Training: In addition to training on housekeeping and hygiene protocols, we are monitoring local health authority and government guidelines on preventative measures and WHO (World Health Organization) awareness information. We have introduced the BESAFE training module for our employees.

We have implemented our COVID-19 training session “Service behind the mask”, checklists, literature, and enhanced standard operation procedures (policies). New hires, orientation packages have additional information on COVID-19, prevention and health and safety guidelines are distributed.

Monthly Health and Safety meeting is conducted, biweekly Manager meetings are held. A component of these meetings includes COVID-19. Information is distributed throughout the month electronically and posted in designated areas.

Hand Hygiene: Proper and frequent handwashing is vital to help combat the spread of viruses. In our daily meetings, our employees are reminded that cleanliness starts with this simple act. It is important for their health and that of our guests. Hand sanitizing stations have been placed in guest contact and employee areas.

PPE:

Personal Protection Equipment (PPE) is available for our employees and these include, goggles, shields, disposable gloves, rubber gloves, disposable, and non disposable masks. With our procurement, we ensure supplies available for our employees.

MASK POLICY:

Painted Boat Resort Spa & Marina introduced and implemented a Mandatory Mask Policy at the Resort which required employees, visitors and customers are required to wear a mask or face covering upon entering designated areas at the Painted Boat Resort SPA & Marina.

Painted Boat Resort Spa & Marina acknowledges that physical distancing is difficult to maintain in enclosed spaces (indoors) and recognizes that a non-medical face mask is a necessary, recognized, practicable and effective method to limit the spread of COVID-19. Painted Boat Resort Spa & Marina is committed to the health and safety of its employees and as such has created this policy regarding the use of face masks in the workplace.

On November 19, 2020, the provincial health officer (PHO) announced that the Minister of Public Safety and Solicitor General would be issuing a public safety order under the Emergency Program Act around mandatory use of masks. On November 24, the Minister of Public Safety and Solicitor General issued an order requiring everyone to wear masks in many indoor settings.

There are exemptions for:

People with health conditions or with physical, cognitive, or mental impairments who cannot wear one.

People who cannot remove a mask on their own

Children under the age of 2 (Masks are not recommended for children under age two. Health officials encourage them for children aged two-to-11 in public setting, but these children are not covered by the provincial enforcement order. Under that order, people age 12 and older must wear a mask in a public indoor space, unless they are exempt.)

ILLNESS / SICK POLICY:

A detailed Sick Policy has been prepared and implemented for our team.

WorkSafe BC – SAFETY PLANS (Communicable Disease Plans):
